**Noncompliance can incur fines
up to \$37,500
by the EPA and/or State
Regulatory Enforcement**

EPA RENOVATION, REPAIR, AND PAINT LAW

**If you are working on homes, schools, or day care centers built pre-1978, you must be
EPA LEAD-SAFE CERTIFIED**

WHAT is the law?

The Lead-Based Paint Renovation, Repair, and Painting (RRP) rule is a federal regulatory program affecting anyone who disturbs painted surfaces where lead may be present.

- Submit an application to certify your firm for 5 years (North Carolina is annually)
- Attend a 1-day approved class to become a Certified Renovator for 5 years, 1/2 day refresher thereafter
- Learn the required steps to contain the work area, minimize dust, and complete project clean-up
- **R e c o r d k e e p i n g Requirements, including pre-education pamphlet**

WHO has to be trained?

Any contractor, including renovators, electricians, HVAC specialists, plumbers, painters, and maintenance staff, who disrupts more than 6 sq. ft. per room (interior) or 20 sq. ft. per project (exterior) of lead-based paint in pre-1978 buildings, homes, rental properties, apartments, condominiums, schools, day care centers, and other places where

COST:

Classes-\$220.00

Check with your trade organization for special rates and pricing that can be provided per proposal for group rates at the location of your choice

Firm Certification:

*EPA regulated states one fee of \$300 every 5 years

*North Carolina \$300 each year

Certified Renovator:

*EPA no fee, no submittal

*North Carolina no fee, but must submit an application

WHY should I comply?

1. **Avoid risk of government fines and civil liability. Fines occurred can be assess up to \$37,500 per occurrence:**

Without certification and without following approved work practices, you and your company can face fines and potential lawsuits

2. **Protect your workers, yourself, your customers, and all children from health risks:**

Dust from renovation, repairs, and painting can contaminate an entire home and, if inhaled or ingested, can cause irreversible damage to children and adults.

3. **Gain Competitive advantage:**

—Certification makes you stand out from other contractors and positions you as a professional contractor consumers can trust. Using your company's certification in your marketing materials may help attract business.

—Consumers will look for the certification before hiring contractors and may be more accepting of additional costs and time associated with doing the job safely

—Upon Certification of your firm, your company will be listed as a Lead-Safe Certified Contractor on the EPA Website, giving your firm the potential for new customers.
